

IVETA FABEŠOVÁ

They say we should be careful what we wish for.

When I was a little girl dreaming of my own pâtisserie, I never imagined that one day I would put my name on the façade of such a wonderful building like this.

My road to get here was paved with obstacles and it was far from easy. Gastronomy is beautiful, but challenging, because you basically start every day over. We only have a few seconds each day to convince you that we really know what we're doing and that we're worth your visit.

I don't want to take all the credit, so let me thank my entire team that stands by my side.

I wish you forget here about everyday problems for a while and enjoy this moment.

Because everything is here and now!

with gratitude Iveta ✦
